Technical Skills

- ✓ Languages & Frameworks: JavaScript, TypeScript, React, Next.js, Node.js
- ✓ Databases: MongoDB
- ✓ Testing & Debugging: Jest, React Testing Library
- ✓ State Management: Redux.js, Context API
- ✓ Styling: Tailwind CSS, Bootstrap, SASS, CSS
- ✓ Tools & Platforms: Git, ElasticSearch, Kibana, Twilio, Contentful, Strapi

Personal Skills

- ✓ Fast learning
- ✓ Communication
- ✓ Teamwork

Work Experience

Frontend Developer

Freelance / Sep 2025 - Present

- Developed a full-stack web application using React and Next.js, with Strapi as a headless CMS and PostgreSQL as the primary database.
- Implemented API integration, authentication flows, and responsive UI layouts.
- Created a mobile application using Vibe Coding.
- Built scalable frontend architecture with clear separation of concerns and reusable components.

Software Engineer (Frontend / React)

Mamble / Nov 2017 - May 2024

- Refactored and migrated legacy applications to React and Next.js, improving performance, maintainability, and scalability.
- Built reusable UI components using React, TypeScript, Tailwind CSS, Bootstrap, and Material UI, reducing duplication across projects.
- Implemented state management with Redux and Context API following best practices.
- Integrated REST APIs and ensured reliable data handling with proper loading and error states.
- Wrote and maintained unit and component tests using Jest and React Testing Library.
- Collaborated with cross-functional teams and supported team members through code reviews and knowledge sharing.

Education

State Engineering University of Armenia

- Master's Degree in Electronics (2016-2018)
- Bachelor's Degree in Electronic Means (2012-2016)
- High School (Mathematics & Physics) (2009-2012)
